

Calories from Protein, Carbohydrate & Fat

Average of 1254 Calories per day

Average Nutrient Intake

Note: Red indicates a range of nutrient intake that does not meet your goal or budget. For calories, intake above your calorie budget is in red because this prevents you from achieving your weight loss goal. For fiber, intake below your goal is in red because this may increase your risk for certain chronic diseases. For saturated fat, cholesterol and sodium, intake above your budget is in red because this may increase your risk for certain chronic diseases. For vitamin A, vitamin C, iron and calcium, intakes above 67% are generally thought to meet the needs of most people. Intakes below 67% of your RDA are in red.

+ Indicates that your average nutrient intake is above 150% of your goal or budget.
